PROFESSIONAL SUMMARY

Software Testing fresher trained in manual and automation testing, with hands-on experience writing and executing test cases, test plans, and test scripts across web applications. Skilled in identifying, reporting, and tracking bugs, verifying bug fixes, and completing regression testing to ensure application stability. Comfortable collaborating with developers to understand requirements, documenting test results clearly, and assisting with automated test scripts.

TECHNICAL SKILLS

- Manual Testing: SDLC, STLC, Test Case & Test Plan Design, Functional Testing, System Testing, UI Testing, Exploratory Testing, Regression Testing, Defect Life Cycle, Requirement Traceability Matrix (RTM)
- Automated Testing: Selenium WebDriver (Java), TestNG, JUnit, Maven, Page Object Model (POM), Data-Driven Testing
- API Testing & Performance Testing: Postman, Apache JMeter,
- Bug Tracking & Documentation: JIRA, Test Result Documentation, Excel Reporting, Extent Reports
- Database: SQL, Data Validation
- Version Control & Agile: Git, GitHub, Agile/Scrum

TRAINING

Software Testing Trainee (Internship) - Ubiisoft IT Solutions, Ernakulam

Aug 2025 - Jan 2026

- Wrote and executed 150+ test cases for web applications, covering functional and regression testing
- Performed end-to-end STLC activities including test planning, execution, defect reporting, and closure
- Automated web application test scenarios using Selenium WebDriver, TestNG, and Maven.
- Collaborated with fellow trainees in group exercises to write, execute, and review test cases as a team

PROJECTS

OrangeHRM - Manual Testing

- Wrote and executed 60+ test cases for Login, PIM, and Leave Management modules; identified and reported bugs
- Performed functional and regression testing, and verified fixes; maintained RTM for requirement coverage

ParaBank - Automation Testing

- Automated core banking functionalities (Registration, Login, Fund Transfer, Bill Pay) using Selenium WebDriver with Java
- Implemented Page Object Model (POM) for maintainable, reusable test scripts

BlazeDemo - Data-Driven Automation Framework

- Built a data-driven framework using Selenium WebDriver and Apache POI to read test data from Excel
- Automated flight search and booking workflows; documented results using Extent Reports

Flipkart - Performance Testing

- Designed and executed baseline, load, and stress testing scenarios using Apache JMeter
- Analyzed response time and throughput; documented performance test results

EDUCATION

Bachelor of Computer Applications (BCA) - School of Technology and Applied Sciences, Kottayam

2020 - 2023

CERTIFICATION

AI Integrated Full Stack Software Testing - STC Technologies, Ernakulam

Aug 2025 - Dec 2025

Software Testing (Grade A+) - NACTET, New Delhi

Jan 2026 - Mar 2026

SOFT SKILLS

Analytical Thinking | Attention to Detail | Problem Solving | Communication | Team Collaboration | Adaptability
